

*Dr. Isra Ahmed D.D.S. SPEAKER*

Dr. Isra Ahmed began her studies at the University of Colorado. Boulder majoring in Mathematics and Chemistry. She was then selected to attend the University of Colorado School of Dentistry. Following the success at dental school, Doctor Ahmed felt the passion to learn and apply more to her patients with complex challenges and inter-disciplinary needs. Through hard work and a relentless pursuit of perfection she was invited to continue her studies at the prestigious, three-year Residency program at The University of Texas at San Antonio where she received her prosthodontist certified designation. In fact, she often credits her residency training and experience as a powerful inspiration to lead each patient with the pursuit of perfection.

She lives and loves the Parker community! She enjoys music, people, and all aspects of Colorado's high country. In fact, she has led her staff to summit some of Colorado's famous 14ers and looks forward to conquering many more! In the office she is fixated on details, genuinely curious, and enjoys the benefits of investing the time to gain an understanding of each patient completely and holistically.

She enjoys sharing each success with her patients. You will learn of her passion to carefully plan and provide complex treatment. These unique traits make her the ideal dentist to pursue the rigorous studies of prosthodontics.
